LICENSED PRACTICAL NURSES
OF NEWFOUNDLAND AND LABRADOR

LPNS - A PRACTICAL APPROACH TO QUALITY CARE

As we celebrate National Nursing Week, the College of Licensed Practical Nurses of Newfoundland and Labrador (CLPNNL) recognizes and celebrates the province's 2300 LPNs who provide safe, competent, compassionate, and ethical nursing care. National Nursing Week is an ideal time to say, "thank you," to all the LPNs who have provided care to you and your family as well.

The theme, *#YesThisIsNursing*, highlights the fact that LPNs are delivering high quality care in a variety of settings throughout the province, including traditional settings such as hospitals and long-term care facilities, as well as in less-traditional settings such as communities, schools, and private industry. The LPN Scope of Practice has grown substantially in recent years and more and more LPNs are in positions and settings where they work to full scope of practice.

The CLPNNL is happy to participate with the Association of Registered Nurses of Newfoundland and Labrador (ARNNL) again this year to applaud all nurses. We recognize the RNs and NPs who work collaboratively with LPNs every day to provide the best care possible in many varied and diverse sites.

Thank you for your commitment, accountability, professionalism and dedication. We hope you have a wonderful week.
