

CLPNNL Emergency Temporary Licensed Paused

As we adjust to changes in public health recommendations related to COVID-19, CLPNNL will be temporarily pausing the intake and processing of Emergency Temporary License Applications. Extension of licenses currently in effect will be reviewed on a case by case basis to ensure that the practice situation meets an actual or potential threat to public safety related to the provincial COVID-19 pandemic response.

In the event there is a need for Licensed Practical Nurses to address surge capacity at any given time in the future, the intake and processing of Emergency licenses may be fully reopened.
